

Partial List of Regulations Applicable to Motor Vehicle Salvage Yards—compiled 01-28-04

	Statute Administrative Rules	Implementing Authority	General Scope of Regulation
Local	RSA 236:111-129	Municipality [Contact the appropriate town office].	Specifies requirements for “junkyards” to obtain a certificate of location approval and an annual operating license from the town, to address local land-use, aesthetic, and nuisance concerns. Note: Additional requirements may apply under local zoning.
	RSA 236:90-110	N.H. Department of Transportation (NHDOT) (603) 271-8124	Specifies requirements for “junkyards” located within 1000 feet or visible from certain federally funded highways to obtain a certificate of location approval and annual operating license from state transportation officials.
State	RSA 259 & RSA 261	N.H. Department of Safety (NHDOS) (603) 271-2330	Specifies registration/licensing provisions for new and used motor vehicle dealers, as well as auto recycling dealers.
	RSA 147-A <u>Env-Wm 100-1000</u> <u>Env-Wm 1100</u>	N.H. Department of Environmental Services (NHDES) (603) 271-2942	Specifies requirements for managing hazardous waste (used oil, solvents, spent fuel, etc.) and universal waste (e.g., batteries, antifreeze, and mercury-containing devices).
	RSA 149-M <u>Env-Wm 100-3800</u>	NHDES (603) 271-2925	Specifies requirements for managing solid waste (e.g., tires, scrap metal, plastics, glass, asbestos, dust, paper, wire/insulation, etc.)
	RSA 146-A <u>Env-Wm 1402</u>	NHDES (603) 271-6058	Specifies requirements for installing, operating, and maintaining aboveground storage tanks.
	RSA 146-C <u>Env-Wm 1401</u>	NHDES (603) 271-3644	Specifies requirements for installing, operating, and maintaining underground storage tanks.
	RSA 485-C <u>Env-Wm 1403</u>	NHDES (603) 271-2999	Specifies certain groundwater protection requirements, including: Junkyards located in groundwater protection areas reclassified as GAA must obtain a release detection permit and sites where a release of groundwater contaminants has occurred may require a groundwater-monitoring permit.
	RSA 485-C <u>Env-Ws 421</u>	NHDES (603) 271-1168	Specifies requirements for handling and storing regulated substances, including many motor vehicle fluids.
	RSA 277 & RSA 281-A	N.H. Department of Labor (NHDOL) (603) 271-3176	Specifies requirements for providing and maintaining a safe working environment for employees.
	40 CFR 122	U.S. Environmental Protection Agency (US-EPA) (617) 918-1615	Specifies requirements for obtaining a storm water management permit applicable to discharging surface runoff from a point source (e.g., storm drains, culverts, ditches, swales).
Federal	Section 609, Clean Air Act	US-EPA 1-800-296-1996	Specifies requirements for evacuating and recycling Freon and other refrigerants.
	40 CFR 63	US-EPA (617) 918-1314	Specifies requirements for operating secondary aluminum production furnaces.
	29 CFR 1910	U.S. Occupational Safety & Health Administration (OSHA) (603) 225-1629 [Concord, NH office]	Specifies requirements for providing and maintaining a safe working environment for employees.
